 - (571) – Description of mark
 - (731) – Name and address of the applicant
 - (750) – Address for correspondence or agent
 - The section contains national and international marks.
 - The difference is defined by the `trademark.applicationNumber` :
 - Madrid mark: BT/M/0001/1592521
 - National mark: BT/T/2021/9889

- Because the marks are published in sequence, first the international (Madrid) marks then the national, the data extraction can be done using 2 different sections. This will make the data flow and processing more straightforward.
